Advertising rates on application.

Subscribers will confer a favor on the management by telephoning the office promptly when carriers fail to deliver the paper, or when change of residence occurs.

NOTICE TO ADVERTISERS.

Advertisers will please take notice that to insure the appearance of their ads on the day the copy is brought in, copy for Daily ads, both new and changes, must reach the office not later than 10 o'clock a. m. on the day the ads are to appear. Copy for ads in the Weekly must reach the office by Tuesday afternoon, not later than 5:30.

All notices of church services, and all other notices, must be in the office by 12 o'clock of the day they are to appear.

It is our purpose to make the Eagle prompt to the minute and to this it is necessary to have fixed rules. Our friends and patrons will aid us greatly by complying with the above.

THE EAGLE PRINTING CO.

BRYAN, TEXAS, MAY 15, 1909.

The Wright brothers have little taste for "society." Nobody who has anything of importance to think about has.

The Sentinel quotes a Nacogdoches business man, "We certainly need a commercial club, and until we get one things will continue to drag." Same here.

Des Moines is making experiments of substituting the coffee house for the saloon. In the history of English literature the coffee house was the scene of many notable gatherings.

Marlin is preparing to spend \$500 per month advertising the town and tributary territory. A secretary of the commercial club will be employed with a salary sufficient to enable him to devote all his time to the work.

The women of Tyler are sending flowers by the wagon load to the men in jail awaiting trial on a charge of lynching the negro, Jim Hodges. Jim Hodges may have been innocent, those women don't stop to investigate, but they look upon the lynchers as their protectors from the most horrible fate that can befall a woman, and honor them accordingly.

Judge Powell instructed the grand jury at Orange that card playing, even for fun, is unlawful, anywhere except in private families. What is a private family? Is there such a thing as a public family? On this point the Galveston News says:

"But if the point shall some time hinge upon a question as to whether a game of cards was played in a pri-

vate family there will be a lawyer on one side or the other who will prove to the judge or jury either that a private family is a public menace or that a private family is the refuge of personal liberty. And that will leave the main question right where it was before."

The Austin correspondent of the Houston Chronicle writes:

The Thirty-first legislature was in session exactly four days less than the Thirtieth, and a remarkable fact is that both the Thirtieth and Thirty-first adjourned on May 11. The Journal of the House of the Thirtieth legislature contained 2200 pages and Journal Clerk Robinson of the house says that the indications are that the Journal of the Thirty-first legislature contained 1500 pages and Journal Clerk Gilmore of the senate says the Journal of the Thirty-first, adding the two extra sessions will be approximately 2250 pages. These comparisons are of considerable interest when it was generally believed that the second session of the legislature during the administration of Governor Campbell would be a light affair as compared to the first legislature under this administration. It will take considerable time and work to revise index and complete the journals of the present sessions.

In the Thirty-first legislature there were not by far as many acts passed as during the Thirtieth legislature. That is matters of general interest. To the fractious attitude of the legislature towards the administration is due to a great extent the increase in the size of the journals as there were more roll calls, and parliamentary maneuvering.

A. AND M. COLLEGE PROPOSALS.

By authority of the Board of Directors, bids will be received in their rooms in the Mess Hall at 9 o'clock Wednesday June 3, for supplying the Mess Hall with beef for the session of 1909-10. Bids will be received for the entire beef carcass, less the liver and one half the neck. The minimum weight for a dressed carcass to be 350 pounds. No stags or bulls to be slaughtered. Also for choice cuts of beef that have been inspected and approved by a United States Government Inspector. Grass fed beef from the opening of the season in September to the first of January. Corn fed beef from January first to close of the season in June. The right is reserved by the College to furnish, subject to contract price, such beef as it may have on hand from the College herd. Bids will also be received for furnishing pork during the above session with the same reservation for the College to furnish hogs that they may have on hand, at the contract price. A certified check for \$500 must accompany each bid. A bond of sufficient amount will be required of the successful bidder to compel faithful compliance with the contract. The right is reserved to reject any or all bids.

R. T. Milner, President.

"THIS DATE IN HISTORY."

- MAY 15.
1636—Henry Vane chosen governor of Massachusetts Colony.
1760—British fleet under Admiral Swanton arrived for the relief of Quebec.

FOSTER'S WEATHER BULLETIN.

Washington, D. C., May 15.—Last bulletin gave forecasts of disturbance to cross continent 17 to 21, warm wave 16 to 20, cool wave 19 to 23. This was expected to bring a great rise in temperatures, to cause radical weather events with very little rain and generally good crop weather.

Next disturbance will reach Pacific coast about 21, cross Pacific slope by close of 22, great central valleys 23 to 25, eastern states 20. Warm wave will cross Pacific slope about 21, great central valleys 25, eastern states 25. Cool wave will cross Pacific slope about 24, great central valleys 26, eastern states 28.

The special features of this disturbance will be warmer, better crop weather and not much rain. It will cause severe storms on the Pacific slope and at the same time the preceding disturbance will be causing severe storms in eastern sections.

I warn all persons on northern Pacific slope, northeastern Pacific ocean, eastern provinces of Canada and eastern states that dangerous storms may be expected within a few days of May 21. All the planetary forces are, and have been for a month, in electric touch with the earth and only a small disturbance is necessary to touch off a very dangerous storm.

In a few localities some errors have occurred in my forecasts but in most sections the forecasts were largely successful. My forecasts for vicinity of Washington, D. C., were about 70 per cent good. I have not heretofore made forecasts regularly for this section.

There are 30 or more well defined weather cycles and I am now able to make useful forecasts for all sections of the country. One difficulty remains to be overcome. These cycles overlap each other and it is difficult to determine where one cycle quits and another begins. I am experimenting on this problem and giving it intense study. When it is conquered the weather problem will have been solved and I hope to accomplish this ere the year closes.

Our national weather bureau is losing prestige. The magazines are giving it a terrible black eye. They do not oppose the weather bureau but its management. Chief Moore is in hard luck and I do not envy him his position. Our weather bureau is at the end of its career as a useful governmental department unless it succeeds in improving its work. I do not want to be chief of the weather bureau but I do aspire to success in formulating a new system of weather forecasting that will make our weather bureau more popular with the people. If I can succeed in this I will have reached the zenith of my ambition.

WOMAN, LOVELY WOMAN

But Alas, Without Beautiful Hair No Woman Can Be Handsome.

A great many newspapers and magazines are printing pages on how a woman can be beautiful and keep beautiful.

And everyone, as you can see for yourself, admits that no woman can be really beautiful unless she has lustrous and luxuriant hair.

The women of Paris are, as a rule, beautiful and keep beautiful, and a careful American observer who has traveled much claims that their beauty is due to their knowledge of how to keep their hair luxuriant, which they do by using a superior hair tonic.

Many American women are as wise as their French sisters, and that is why Parisian Sage, the quick action and greatest of all hair restorers and tonics, is now having such a tremendous sale in America.

We ask every woman reader of this paper to give this marvelous hair beautifier a thorough trial, and we gladly make them this liberal offer:

Get a large 50 cent bottle from E. J. Jenkins today, the largest for the money in America. Use it as directed for two weeks. If at the end of that time you are not satisfied with results, say so to E. J. Jenkins and he will give you your money back.

Besides being a delightful and invigorating hair dressing, free from grease and stickiness, Parisian Sage will surely cure dandruff, stop falling hair and itching of the scalp, or money back.

The girl with the Auburn hair is on every package, and leading druggists in every town sell Parisian Sage.

BRYAN BANQUET AT COLUMBUS.

Special to the Eagle.
Columbus, Ohio, May 15.—Elaborate arrangements have been made for the banquet here tonight in honor of Wm. J. Bryan. Ex-Governor James E. Campbell is to preside and Governor Harison and a number of other leading Democrats of Ohio are scheduled among the speakers.

Fresh bread, rolls and cakes always on hand, also nice line of fancy candies. Mrs. Otto Boehme.

WYLDEWOOD BREEDING BARN

BARN PHONE 293

HOME OF

RES. PHONE 187

Blondwood 24140

Wyldewood Idle 47978

Texas Grattan 47813

Joe Bailey 50286

Do You Want to Breed to the Best?

Or are you breeding for convenience or experience?

Blondwood is a handsome Chestnut of superior finish, style and action, and the most fashionably and royally bred horse in the South. Every sire and dam back of him, have proven grand show horses, and great sires and producers of phenomenal speed and show horses. How could Blondwood fail to be a noted sire. As a combination saddle and harness horse he has but few equals, and with his style, speed and action combined with his intelligence and kind disposition, which he transmits to his get, with great uniformity, make his colts prized above all others; to see how their owners appreciate them try to buy one. Blondwood's fee for season, \$15.00 to insure \$25.00.

Sons of Grattan 2:13, are everywhere making a reputation for the "King of the home stretch family," on the track, in the show ring and as sires. In Wyldewood Idle we are fortunate in being able to offer to the owners of good mares the service of one of his best bred and handsomest sons, Wyldewood Idle is now 3 years old and when matured will make a horse 16 hands and weighing 1200 pounds. He is a full brother to Sam Grattan whose fame as a prize winner is known all over the United States. Mr. Ed S. Wilkes of Wheelock, owns first foal by Wyldewood Idle and writes he is well pleased in every respect. Parties breeding to this handsome young horse will not be disappointed. He has perfect gait, stylish, well mannered, kind disposition and of perfect conformation. His fee for season, \$12.50 to insure \$20.00.

Texas Grattan, another son of Grattan 2:13, with his 1st, 2nd, and 3rd dams all in the great broodmare list, shows speed inheritance that few can lay claim to. Texas Grattan can show untrained, a 2:40 gait, and the road is never too long for

him. The only criticism any one can have, is that he has a low back, which we guarantee he will not transmit to his colts. Look at some of his colts and if they are not the equal or superior of any horse, pass him up. His service fee is \$15.00 to insure a colt that is satisfactory to the owner. Do you want any other inducements? These terms apply only this season.

Joe Bailey, in one of the handsomest Percheron horses in Texas, dark bay in color, 16 hands and weighs 1650 pounds. For farm use and for improving the quality and size of our native stock we know of no type of horse more suited to the purpose. Most all of the farm and breeding stock used are under size. Owners of mares with draft blood, will find his colts to be more profitable than any other cross. His colts are fine, see them and you will breed to him. Joe Bailey's fee for season, \$12.50 to insure \$20.00.

Enough of good mares in Brazos county every year are allowed to go barren by negligence, want of time, etc., that would make more clear money, if bred to a good horse, than the net profits on the entire farm. A well bred colt will often sell for more money at 1 year old than his dam will cost. As a business proposition can you afford to let your mare remain idle? Our stallions are all registered with no hereditary unsoundness, and have colts to show what they are as breeders. Breeding Barn is half way between Parkers Landing and Allen Academy. Free pasture for mares from a distance. Mares hard to foal our specialty. Before you breed don't fail to see us. All care will be taken to prevent accidents but all mares are at owners risk. For any other information call, write or phone.
